Staff: Jill Beck

1. Chris Feickert called the meeting to order at 2:00 p.m. Welcome and introductions were made.
2. The committee purpose was reviewed and possible committee restructure was discussed. Items discussed were that the committee has been task oriented in the past; does it continue as it has been, restructure, rename, re purpose....
3. Local boards were asked if they have a technology committee and what its purpose is. Fargo no longer has one but have a Membership Engagement Committee that tech things will be assigned to and will have task forces handle anything specific. Minot has a combination of Membership and Technology committee. Bismarck Mandan is looking at possible restructure but do currently have a Tech Committee. Grand Forks does tech tidbits at general membership meetings.

Dave stated that Minnesota committee looks at all communication from the association and touches all other committees in the association. They also have an app on the higher logic platform. Dave will get more info on how their committee operates.

NAR's Data Strategies Committee focus is on data and cyber security. Jamie will share the committee charge as well at the next meeting. The question was asked that with the different levels of technology based members is it more of a local level item to discuss. With the updated website, newsletter and texting what is the need for the committee? What do our members want from it?

After further discussion it was moved to table discussion **M/S/C**

Dave will bring back info from the Minnesota Association and Jamie will get job purpose/description of the NAR Data Strategies Committee.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Kaylah Horton
