Did you know that in the US it is more common for business professionals to NOT understand business financials than to actually understand them? By taking this class you will learn the basics of business financial statements, how a P&L works with your Balance Sheet, and why you should be paying more attention. As a 1099 wage earner, you ARE the President and CEO of your own business, this knowledge, as a refresher or for your first time, will give you the tools to strengthen your business, ensure you are prepared for the financial ups and downs involved and get you ready to break through to the next level of success. We'll even cover assets, liabilities, gains, and losses, and how one entry done the wrong way can have drastic implications for your success!

About the Instructors:

Daryl Braham began his business career early, starting his own company at age 15. He continued a strong career in Canada before moving to the US in 1997 building new home construction and real estate companies. He's a past local and state president, RVP, a Liaison twice for NAR, and much more, including consulting, training, and speaking services to companies and associations throughout the United States and Canada.

Casey Chapman practices law in Bismarck & Fargo with emphasis in real estate, business, and estate planning. He is a former adjunct instructor in Business Law for the University of Mary and for Dickinson State University at its Bismarck campus and also the NDAR Legal Counsel. Casey is married to Patsy, who is a REALTOR®, and together they share a family of six children and three grandchildren.
